2009 COMPLETE LINE COLLECTION

Browse these pages and get in tune with all that's new from Zippo!

Zippo BLU™ The premium butane pocket lighter with everything you expect from Zippo . . . and more! Seventeen distinctive models, including two favorite licensed logos and Zippo's most enduringly popular high polish chrome finish. Limited customization now available on limited models.

Music Over two dozen new music themed lighters pay homage to some of the greatest bands in rock 'n' roll. See details on custom-imprint program.

Heritage, Classics & Slims opens with a dazzling commemorative lighter honoring the 40th anniversary of the historic moon landing, and an elegant 1935 Replica. Zippo-themed lighters and finishes in their basic, beautiful, unadorned state complement an extensive palette of powder coat finishes, in both regular and slim sizes. Innovative engraving and customization styles balance the simple elegance of chrome, brass, and lustrous sterling silver Armor; sterling silver, and solid gold.

Animals introduces stunning animal portraiture by Linda Picken, wrought with Zippo's color imaging process. From butterflies, bats and killer whales to eagles, wolves and horses – this menagerie includes even a whimsical calico cat!

Heroes salutes the American flag, the United States Armed Forces, and unsung everyday heroes. We've enlisted a new series of Military Mascot lighters, sure to boost sales, to fill the ranks of this category.

Indulgence features a compilation of cars, cards, games of chance, adult legal beverages and outdoor pleasures and pastimes. The entire lineup of NFL and MLB team lighters are new, along with a representation from the NBA.

All About Me showcases personal expression and beliefs on a selection of Zippo lighters ranging from licensed designs by Kit Rae, Traditions and American Hardcore artists to traditional pipe lighters, Southwest designs and a reprise of the popular Serenity Prayer.

Signature Styleguide illustrates and explains the processes available for customizing Zippo products.

Displays and Accessories and MPLs round out the 2009 Complete Line Catalog.

Because we are constantly improving our products, some items may not look exactly as depicted. Prices and specifications subject to change without notice.

ZIPPO

For generations, Zippo lighters have been treasured as pocket-sized placards of personal preference. Over 450 million Zippo lighters have documented individual taste in everything from sporting events to number one teams; from beverage of choice to favorite animal; from military affiliation to historic milestones.

Now show off your style with a Zippo lighter displaying your choice in music. It's a natural progression . . . both Zippo and music advocate social interaction, encourage individual expression, and forge an enduring bond with the user. Create your own Zippo Moment with Def Leppard, ZZ Top, The Who, or a host of others emblazoned on a Zippo lighter. Rock on!

Moon Landing 40th Anniversary

Some moments are indelibly etched in a generation's memory. Like the now-classic promise of "one small step for man; one giant leap for mankind" spoken by Neil Armstrong as he first stepped onto the surface of the moon July 20, 1969.

Zippo renews that historic memory with the Moon Landing 40th Anniversary commemorative lighter. The granular Galaxy finish, exclusive for this lighter in 2009, sparkles when it catches the light like stardust caught in a moonbeam. The art is laser engraved to the media finish base lighter, resulting in a metallic silver image.

1935 Replica

The 1935 lighter, one-eighth inch shorter than subsequent models and manufactured for less than three years, has been replicated in stunning detail featuring the original look and elements that made this lighter one of the most collectible in Zippo's history.

Like the original, the 1935 Replica features a three-barrel outside hinge joining the lid and bottom, an open hollow rivet that secures flint wheel to inside unit, a flat bottom case, and slashes on the opposite corners of the face and back surfaces. A distinctive bright brushed chrome finish and unique bottom stamp identify the 1935 Replica.

The 1935 lighter was the last of Zippo lighter production to feature the hinge on the outside of the case. Coincidentally, 1935 was the first year that company logos were applied to the face of the Zippo lighter, leading to the creation of the Zippo ad specialty division, later known as Zippo promotional products.

1941 Replica

Several distinctive characteristics distinguish the 1941 Replica from today's familiar Zippo windproof lighter. The 1941 case has flat planes with sharper, less rounded edges where the front and back surfaces meet the sides. The lid and the bottom are joined with a four-barrel hinge, just as they were on the original 1941 design. The current Zippo lighter has a five-barrel hinge.

The inside unit closely replicates the design of the original 1941 model inside unit. Like the outside, the sides of the inside unit are flatter, with squared edges where they meet the front and back surfaces. The inside unit has fewer holes in the chimney, and is also fitted with a hollow rivet that holds the striking wheel in place.

Bottomz Up Logo
High Polish Chrome

For decades, the Zippo bottom stamp has marked the authenticity of every genuine Zippo lighter. The simple system of dots and slashes, initiated to aid identification of lighters coming back to Zippo for repair, was later replaced by letters and Roman numerals, and still later by letters and digits signifying the month and year of manufacture.

Now Zippo is turning the whole system upside down . . . literally.

Bottomz Up displays the traditional Zippo stamp not only on the bottom, but also on the top of the high polish chrome lighter. The conventional date code, showing month and year of manufacture, is stamped on the canned-style bottom, while the canned-style lid is branded with the year of manufacture and the **B** symbol identifying it as Bottomz Up.

Fits standard Zippo displays.

First released by Zippo in 1974, the Venetian® is still one of Zippo's most popular lighters. For over three decades, the timeless front and reverse floral pattern continues to be the most globally appealing lighter design Zippo has ever released.

She was the windproof lighter's original spokes model. From her earliest appearance in Zippo's first national advertisement, Windy has personified the windproof characteristic of a Zippo lighter. However turbulent the elements, and however the fads and fashions might change with the passing years, the Zippo flame remains steadfast.

Celebrate Windy through the decades with a new series of Zippo lighters – satin chrome, surface imprinted – and yes, windproof. A nostalgic fifth lighter replicates early advertising for the famous Zippo fan test.

US COAST GUARD BEAR

The bear was adopted as a mascot by the US Coast Guard soon after the turn of the 20th century. In 1926, a young cadet returned from leave with a live bear cub, who was named Objee, short for objectionable presence. A favorite with cadets, Objee lived in many homes over the years, and ultimately lived up to his name. After more than six decades of active duty, he was retired to a farm in New York state.

US AIR FORCE FALCON

Members of the Air Force Academy's class of 1959, the first to enter the Academy, chose the falcon as their mascot, believing it embodied the characteristics they had come to associate with the US Air Force: speed, power, grace, vigilance, regal bearing, and a noble history. Interestingly, the falcon is the only performing mascot in the National Collegiate Athletic Association, and is the pride of the Air Force Academy.

US NAVY GOAT

According to legend, in 1893, a goat named El Cid helped Navy's football team hand Army a stinging defeat. The Navy men were so pleased with the win that they officially adopted the goat as the team mascot. In the early 1900s the mascot was given the official name of Bill, in memory of Commander C.M. Chester, Commandant of Midshipmen from 1891 – 1894.

US ARMY MULE

The Army mule dates back to 1899, when an officer assigned to the Philadelphia Quartermaster Depot tapped a local mule to become the mascot of the Army football team. It wasn't until 1936, however, that the Army officially adopted the mule which it affectionately named Mr. Jackson, after Thomas "Stonewall" Jackson.

US MARINE CORPS BULLDOG

The USMC bulldog made its first appearance during WWI on a recruiting poster. In the early 20s, he was recruited for a term of life and given the rank of private. Over the years the bulldog received numerous promotions, finally rising to the rank of Sergeant Major. In the late 50s, he was renamed "Chesty" in honor of Lt. General Lewis B. "Chesty" Puller, whose illustrious career spanned more than three decades.

The Zippo pipe lighter is made to the same high quality standards as a Zippo windproof pocket lighter, but designed for the special needs of pipe smokers. The ingenious design encases the flame in metal, allowing it to be drawn directly into the pipe without bending over the side. The result: perfectly lit tobacco, with no damage to the pipe.

Pipe Lighter Gift Set
High Polish Chrome Lighter

When Friedrich and Heinrich Kapp opened their business in 1865, they could scarcely have dreamt that they, with their partner Charles Peterson, would go on to become Dublin's most fashionable and respected manufacturer of fine smoking pipes. In 1890 Peterson invented a revolutionary new system that allowed surplus tobacco moisture to drain into a specially designed reservoir within the carved briar.

The dedicated team of craftsmen at Peterson today continues the skills and craft that Charles Peterson applied to his original invention over a century ago. Coupled with a patented graduated stem, the Peterson System provides one of the driest smokes ever.

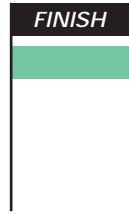

Now Zippo enhances the genuine classic Peterson pipe with a classic high polish chrome Zippo lighter. The special pipe lighter insert allows a strong, steady flame that doesn't burn the pipe bowl.

This distinctive gift set is not just a pipe dream . . . but it is available only while quantities last!

Auto Engrave

The crisp, clean jewelry look of auto engraving has become one of the most popular methods of customization. Skilled operators use either rotary engrave or diamond cut method to inscribe an image into the product using creative fill patterns. A dimensional effect can be achieved by using directional fill patterns.

Also known as Rotary Engraving or Computer Engraving

- standard imprint charges
- not available on powder coat and translucent finishes
- can be done on sterling silver and solid gold
- minimum quantity required
- lid line adjustment may be made
- may require additional lead times

Laser Engrave

This state-of-the-art process allows Zippo tremendous flexibility when reproducing your artwork on our products. Our laser engravers are computer programmed to generate an accurate replication of your imprint.

Also known as Laser Mark

- standard imprint charges
- minimum quantity required
- multiple surfaces available
- shows great contrast

Lustre

Zippo's signature lustre etch method produces an attractive, durable imprint. The artwork is etched into the lighter and plated for a permanent mark. A beautiful contrasting effect is created.

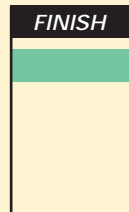

Used only on plated finishes

- standard imprint charges
- not available on PVD, powder coat, and translucent finishes
- minimum quantity required
- lid line adjustments may be made
- may require additional lead times
- front and reverse surfaces only

Double Lustre

The design is double etched into the lighter. This layered process is then buffed and plated, displaying a multi dimensional effect. A portion of the design will be chromed out for impact.

- contact Zippo sales representative for imprint charges
- available only on 250 & 260.25
- minimum quantity required
- may require additional lead times
- one surface only

Etch and Paint

A legendary process, Zippo's etch and paint method produces an attractive durable imprint. The artwork is rendered to display a vintage effect. The image is etched into the plated lighter, then colorfilled in the cavities.

Also known as Etch and Color or Colorfill

- standard imprint charges
- available only on high polish and brush chrome finishes
- minimum quantity required
- image cannot cross lid line

Surface Imprint

A longstanding popular method, surface imprinting is a silk-screening process using a separate screen for each color. Durable epoxy ink is applied to the finish one color at a time, building a rich and vibrant image. The product is cured, bonding the epoxy imprint to the surface where it becomes an integral part of the finish.

Also known as Screen Printing or Silk Screening

- standard imprint charges
- not available on precious metal finishes
- minimum quantity required
- lid line adjustments may be made
- eight colors maximum
- large paint filled areas require stucco process

Color Imaging

Transfer printing method allows up to 5 spot colors to be imprinted onto the lighter surface.

Color Imaging (4 Color Process)

Special cliches are created to allow four color process printing. A 300 DPI photo is required for crisp accuracy. CMYK colors are used to create a photographic image.

Also known as Pad Printing

- contact Zippo sales representative for imprint charges
- not available on precious metal finishes
- minimum quantity of 250 pieces required
- may require additional lead times
- special art requirements / hi resolution photo required to be reviewed by Creative Services

All models below require special handling due to the unique processes and methods on each piece. Several model styles below require minimum quantities, tooling charges, special lead times, as well as specific art files. Contact your Zippo sales representative for more information. *All premium custom orders need to be routed through the Zippo Design Center.*

Deep Carved

Graphic is rendered in state of the art 3D software. A powerful milling machine accurately engraves deep contoured cuts into an Armor™ case using many tool sizes, special buffing, and plating.

- Heavy Wall Armor™ case only

Epoxy Inlay

Clear, marbled or solid epoxies can be inlayed into deep cavities by highly skilled artisans.

- Lid line and size restrictions apply
- Special engraving can be designed under translucent epoxy for a luxury look.

Stone Attachment

Zippo designers and engineers continue to develop special inlayed materials and stones to delight Zippo customers.

Photo Imaging

A high resolution photo is required to achieve a crisp beautiful gradated image.

- On dark finishes, Zippo may invert image for a better photographic representation

Stamping

Image is debossed into the case, creating a 3D design.

- Restricted to #207
- Art constraints
- Tooling charges and minimum quantities may be required

Emblem

Image is die struck onto various metal substrates such as brass, aluminum, and pewter.

- Art constraints
- Additional lead times required
- Tooling charges and minimum quantities may be required
- Contact sales rep for details

Reverse Etch

Unique process that etches the area around the design, leaving the image raised.

- Model restrictions #121FB, #201FB, #301FB
- Art constraints
- Tooling charges and minimum quantities may be required

Selective Inlays

Designs can be inlayed in 24KT gold or rhodium.

- Additional lead times
- Art constraints
- Tooling charges and minimum quantities may be required

* model not available for purchase

Precious Metals

Special handling is needed when engraving precious metals.

- Sterling Silver and Solid Gold
- Limited customization options available

Custom Art • Limited Editions • Exclusive Designs • Signature and Licensed Designs

Special event and/or anniversary designs can be supplied by customer or created by Zippo artists.

Personalization and consecutive numbering are available for an additional charge.

Designs supplied by Zippo customers can be restricted to others. Must be discussed and approved through Design Center. Signature and licensed designs must be processed and approved by our licensing department. Call your sales representative for details.

LUXURY CUSTOM IMPRINT METHODS

Two-Tone Engraving

Auto Two-Tone

Contrast is achieved when Zippo engraves in two different depths. Vibrant chrome and brass engraving allows for a "gold and silver" effect.

- Some model restrictions apply
- Art constraints apply
- Available on 200, 205, 207
- Cannot pass thru lid line

Laser Two-Tone

Zippo's lasers can be programmed utilizing two different depths, creating a unique contrast within the image.

- Restricted to models 150, 151, 200, 205, 207, 250, and 20446
- Cannot pass thru lid line

Laser/Auto Engrave

Zippo can combine Laser and Auto Engrave processes to achieve a jewelry look.

- Art constraints apply
- Some model restrictions apply
- Engraving can also be done on top of lasered area

Surface Imprint

Stucco

By applying textured layers of ink, a stucco look can be achieved. Small icons or patterns can be selected by design.

Distressed

When rendering artwork, artists use a unique filter to give the art a pocket worn effect.

Ghost Clear

Zippo can apply a clear epoxy image along with additional inks to achieve a "ghosted" effect.

- Large areas of clear not recommended

Chromed Out

When rendering art, an area of design is opened up displaying the base finish. No additional charge for this method.
